

MAHENDRA TIWARI

BCA Student • Full-Stack Web Developer • React / Node.js

PROFILE

BCA student with hands-on experience building full-stack web applications using React, Node.js, Express.js and MongoDB. Comfortable working with REST APIs, authentication, responsive UI development, Git/GitHub and AI API integrations. Interested in practical software development, product building and solving real-world problems through web technology.

EDUCATION

Bachelor of Computer Applications (BCA)
Mahatma Gandhi Kashi Vidyapeeth (MGKVP)

2025 – Present
Varanasi, Uttar Pradesh

TECHNICAL SKILLS

- **Languages:** C, C++, JavaScript, basic Python
- **Frontend:** HTML, CSS, JavaScript, React.js, Vite, Tailwind CSS, DaisyUI
- **Backend:** Node.js, Express.js, REST APIs, JWT authentication, cookie-parser, CORS
- **Database & Storage:** MongoDB, Mongoose, MongoDB Atlas, Cloudinary / ImageKit
- **Tools:** Git, GitHub, Postman, VS Code, npm, Render
- **Other:** AI API integration, responsive UI, basic data structures & algorithms

PROJECTS

NEXORA — Academia–Industry Talent Platform

- Developing a multi-role platform connecting students, colleges/universities and companies around skills, opportunities and industry collaboration.
- Designed role-based flows for Student, College/University and Company portals with profile management, skill mapping, opportunity matching and dashboards.
- Planned AI-assisted resume analysis and skill-gap analysis while keeping core workflows deterministic and explainable.
- Tech: React.js, Node.js, Express.js, MongoDB, JWT, Git/GitHub, AI APIs.

FocusFlow — Student Focus Tracker

- Student productivity platform for recording study sessions and viewing subject-wise study analytics and streaks.
- Includes an AI assistant concept for generating useful prompts and supporting focused study workflows.
- Tech: React.js, Node.js/Express.js, MongoDB and AI API integration.

Movie Hub — Movie Discovery Web App

- Built a movie-focused web interface with search and movie detail pages.
- Worked on smooth loading states and modern 3D-style UI animations using CSS/GSAP concepts.
- Tech: HTML, CSS, JavaScript and frontend animation tooling.

HARDWARE / PRACTICAL WORK

- Arduino UNO and Tinkercad circuit simulations using ultrasonic sensors, L293D motor drivers, gear motors and LEDs.
- Implemented distance-based motor control logic and explored obstacle-avoidance behavior.

CORE STRENGTHS

Problem solving • Debugging • REST API development • UI implementation • Git/GitHub workflow • Learning new technologies through projects • Practical software development

INTERESTS

Full-stack development, web applications, developer tools, AI-assisted software and practical project building.
